Welcome

Welcome to Minigames!

Welcome to the home of **VentureKraft Minigames**, our newest server launched on **Sunday the 28th of June** at **3PM** Eastern Standard Time. From this main page, you will be able to access all the information you will need to know in order to get the best experience possible from our Minigame server upon launch. Furthermore, with post launch content updates inbound, we will keep an update Changelog here for your easy viewing!

We would like as much interaction from the community as possible. We want you to submit your maps and Minigame ideas for possible inclusion on our server, and from here you will be able to tell us what you want to see from our Minigames server.
