Welcome!

Welcome to the **Vanilla** Server! This server offers a Semi-Vanilla experience with a few Addons installed. The Addons only exist to enhance the Player Experience and for safety reasons. If that sounds fun then be sure to hop on and start playing! From this main page, you will be able to access all the information you will need to know in order to get the best experience possible from our **Vanilla** server!

Vanilla Addons

The Vanilla Server Has The Following Addons Installed:

Multiplayer Sleep: This Vanilla Tweaks Data Pack allows only one player in the overworld must sleep to skip the night and the rain.

Armor Stands: This Vanilla Tweaks Data Pack adds a unique book that allows you to alter the properties of armor stands in survival.

Player Head Drops: This Vanilla Tweaks Data Pack a player will drop their head when killed by another player. The item displays who the killer is.

More Mob Heads: This Vanilla Tweaks Data Pack adds a chance to receive a mob head upon killing it.

CoreProtect: CoreProtect is a fast, efficient, data logging and anti-griefing tool. Owners and Managers can Rollback and restore any amount of damage.

Extra Info

Extra Info

Spawn

Spawn is the "*Center*" of the server and is where multiple community builds, shops, and other collaborations reside. You can build any Shop in the Shoping District and any Minigame in the Minigames District. Just make sure you dont build them too close to others!

Exploits And Glitches

Venturekraft Vanilla is intended to feel as vanilla as possible. This means that while using some game breaking exploits and bugs are against the rules, several aren't. You can use any exploit or glitch as long as you don't have any direct advantage over it (for example Bedrock Breaking or Lit Entity Duping). Item duping is STRICTLY not allowed. If you are not sure if something is allowed or not then better ask in the Discord Server!
